Porcelain veneers

Yes, we offer porcelain veneers. Each veneer costs $1,150 and treatment usually takes three visits over four weeks: a smile design consultation, preparation with temporary veneers, and fitting. Most patients choose between 4 and 8 veneers.

Composite bonding

Composite bonding repairs small chips and gaps in a single visit and costs $280 per tooth. It lasts five to seven years with good care.

Night guards for teeth grinding

A custom night guard made from a 3D scan costs $395 and is ready in about one week. We recommend one for anyone who grinds or clenches at night.

Botox and fillers

We do not offer Botox or dermal fillers. We are happy to recommend a local medical aesthetics clinic.
